

KB65 Autoclicker User Guide

This user guide explains what the program does and how to use it.

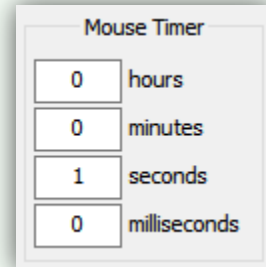

KB65 Autoclicker is an open-source autoclicker and autopresser software. It automates mouse clicks and keyboard key presses together.

- Left-Middle-Right mouse buttons are supported.
- "Single/Double click" and "Xtra click" (16 clicks at once) modes.
- Autopresser mode is compatible with various keyboard layouts (AZERTY, QWERTZ, DVORAK etc.)
- Repeat times can be infinite or a specific number. Also you can set a countdown timer for any duration up to 100 hours.
- Load/Save your settings to an .ini file for future use.
- Includes 4 additional themes to jazz up your appearance.
- Runs on Windows 98/ME and all later versions, including Windows 10 and 11.

Mouse/Keyboard Timer

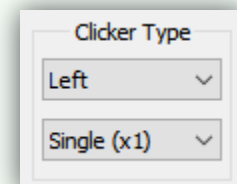

You can set up your automating timer settings these numbers. For example, this picture says “your automation process will repeat every second”.

Mouse Clicker Type

First menu lets you choose which mouse button to use.

- **Left:** Left Mouse Button
- **Middle:** Mouse Wheel
- **Right:** Right Mouse Button

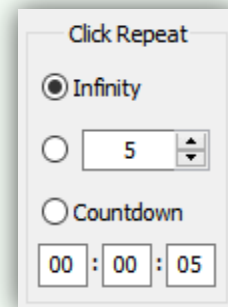

The second menu allows you to choose your clicking type:

- **Single (x1):** A standard single mouse click.
- **Double (x2):** A double mouse click.
- **Xtra (x16):** Simulates 16 clicks at once. This mode should be used carefully due to its high CPU usage.

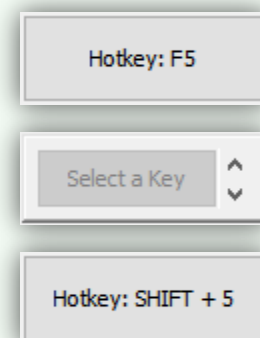

Click Repeat

- **Infinity:** Repeats the automation process until you stop it.
- **Times:** Repeats a specific number of times. 65.535 is the maximum value you can enter here.
- **Countdown:** Sets a timer. When the countdown reaches zero, the automation process stops.

Selecting a Hotkey

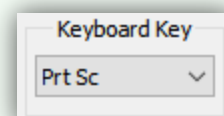

Click on Hotkey button to select a new hotkey. When you click the button, the text on the button changes to "Select a Key". Press a key to use it as a hotkey. After you pressed a key, the name of the key will display as text on Hotkey button.

NOTE: CTRL/SHIFT/ALT combinations are also supported.

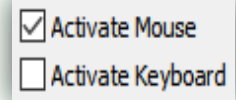

Keyboard Key

Tons of keys from your keyboard can be used for automation. Just click here and select a key. If you use keyboard layouts other than QWERTY, the program updates the keylist automatically.

Activation Checkboxes

Check the box for whichever automator you want to use. In this picture, autoclicker is active and autopresser is disabled. You can change the hotkeys even if you disable two of them.

Control Panel Buttons

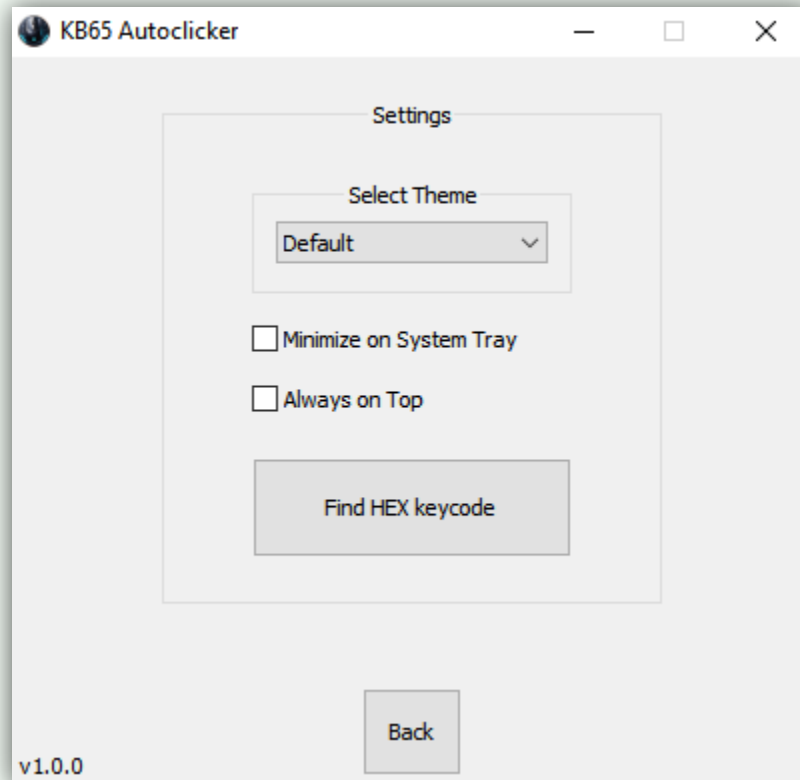

- **Button 1:** Opens the website link of this manual, allowing you to read the manual online.
- **Button 2:** If you've saved your settings before and want to use this configurations again, click this button.
- **Button 3:** Saves your hotkeys and other configuration settings to .ini file. Inside of the file appears as follows:

```
KB65 Autoclicker.ini - Not Defteri
Dosya  Düzen  Biçim  Görünüm  Yardım
[Mouse]
MouseHotkeyNameSpecial=SHIFT
MouseHotkeyKeySpecial=4
MouseHotkeyNameNormal=F5
MouseHotkeyKeyNormal=116
MouseIntervalHour=1
MouseIntervalMin=2
MouseIntervalSec=3
MouseIntervalMilliSec=4
```

- **Button 4:** Opens "Settings" menu.

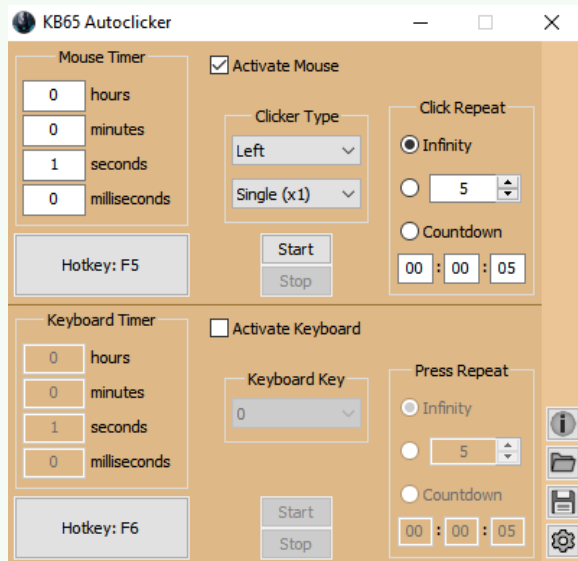

Settings Menu

- **Themes:** Change your program's appearance with a variety of colorful themes. Additional themes include [Burlywood](#), [Gray](#), [Soccer Pitch](#) and [Oceanic](#). You can see how the interface looks with each theme on the next page.
- **Minimize on System Tray:** If checked, it minimizes the program to the system tray instead of the taskbar.
- **Always on Top:** If checked, "it pins the active window above all other windows. The pinned window stays on top, even when you select other windows."
- **Find HEX keycode:** It works like hotkey selection button, but this button shows your key's hexadecimal code. For example; if you press TAB, it says "You pressed 0x09". 0x09 is TAB's keycode (VK_TAB).

THEMES

Burlywood

The Burlywood theme features a light tan background with darker tan borders and controls. The interface is divided into two main sections: Mouse Timer and Keyboard Timer. The Mouse Timer section includes a 'Clicker Type' dropdown set to 'Left', a 'Click Repeat' section with 'Infinity' selected and a value of 5, and a 'Countdown' section with a timer set to 00:00:05. The Keyboard Timer section includes a 'Keyboard Key' dropdown set to '0', a 'Press Repeat' section with 'Infinity' selected and a value of 5, and a 'Countdown' section with a timer set to 00:00:05. Both sections have 'Start' and 'Stop' buttons and a 'Hotkey' field (F5 for Mouse, F6 for Keyboard). The window title is 'KB65 Autoclicker'.

Gray

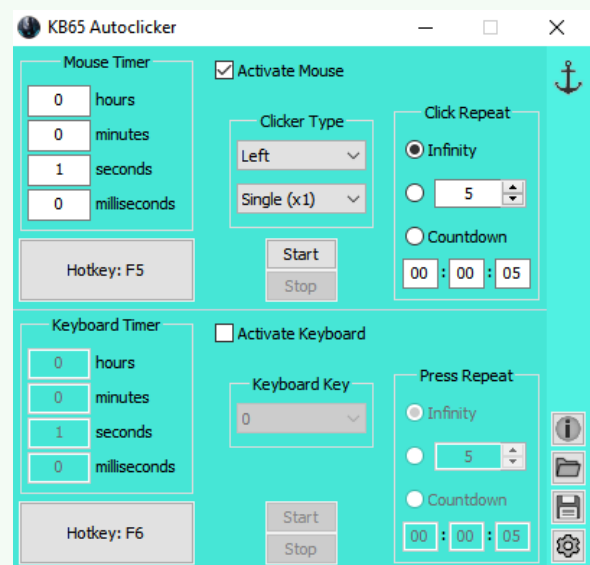

The Gray theme features a dark gray background with lighter gray borders and controls. The interface is identical in layout and functionality to the Burlywood theme, with the same sections for Mouse and Keyboard timers, clicker types, repeat rates, and countdowns. The window title is 'KB65 Autoclicker'.

Soccer Pitch

The Soccer Pitch theme features a green background with darker green borders and controls. The interface is identical in layout and functionality to the other themes, with the same sections for Mouse and Keyboard timers, clicker types, repeat rates, and countdowns. The window title is 'KB65 Autoclicker'.

Oceanic

The Oceanic theme features a teal background with darker teal borders and controls. The interface is identical in layout and functionality to the other themes, with the same sections for Mouse and Keyboard timers, clicker types, repeat rates, and countdowns. The window title is 'KB65 Autoclicker'.
